

Transfer Trolley

Tray & Trolley Return System

BAVEL
CONSULTING

The Transfer Trolley is a key element of the Tray and Trolley Return System, as it allows staff to efficiently return trays to the divestment area of the security lane. Trays are transported on the staff side of the security lane, which reduces passenger disruption and eliminates the need for security checks on the trolley. The Transfer Trolley boasts a high tray capacity, which minimizes the number of trips required for tray replenishment.

Highlights

- Extendable trolley increases loading capacity to two stacks of trays
- Compact design for easy storage when not in use
- Easy to load and unload trays into the Loading Table
- Raised trolley edges protect trays from collisions
- Optional backboard for customizable branding and signage

Technical Information

Dimensions	1200(L) x 820(W) x 820(H) [mm]
Weight	19kg +/- 0.5kg
Castor	Swivel (with break)
Material	Aluminium framing & HPL Board
Colour	Customisable vinyl
Tray Capacity	56 Trays (600 x 400 [mm] trays)
Interface	Loading Table, Security Tray
